

CURVE-DEK®

Curve-Dek® is an innovative product solution designed to meet the growing demand for curved roof and canopy applications.

Curve-Dek® allows the design team to create striking ceiling and roof configurations utilizing a smooth curved building component.

From bold fluted to smooth lineal textures, **Curve-Dek®** offers variety for your design. These looks are further enhanced by Curve-Dek's ability to provide concave and convex curvatures and acoustical properties to meet challenging demands.
